

Scoped Rifle Shoot 5 August 2018 Course of Fire

This Shoot is still experimental so be prepared for changes on the day.

1. As we have a number of butt changes then shooters should be prepared to get off the point quickly and to do their turn in the butts, more than once.
2. Sighters will be limited and so it is recommended that you shoot with a pal to act as a spotter.
3. We will be moving ranges so please keep your kit to a minimum to save time. Rifle, Ammunition and Optics only to save time. If you are in the butts and we change ranges then we don't want to carry a load of unnecessary Gear. 50 rounds plus Sighters
4. Targets will be Fig 14, Fig 12 Fig 11 only for the competition.

Practice 1 300 yards

Targets to be a Fig 14 and a Fig 12 side by side on the Manual Targets boards fixed at the front of the mantlet.

2 Sighters on a handheld Fig 12 / Top Hat

15 rounds fired in 3 minutes on command of the range officer

10 Rounds at the Top Hat

5 Rounds at the Figure 14

At the end of the practice the shooters will remove their rifles from the firing point immediately so the butt crew can mark the targets. (Shooters can return to the point to pick up their kit and empties once their rifles are off the point)

Practice 2 500 yards

1 Sighter on a handheld fig 12 Target.

15 Rounds required.

10 x 3 second exposures of Fig 12 Target 1 round per exposure.

When Fig 12 target is taken down shooters may fire an additional 5 rounds at either the fixed Figure 12 or Fig 14 target. In 1 minute.

Points are double for hits on the Fig 14 target.

At the end of the practice the shooters will remove their rifles from the firing point immediately so the butt crew can mark the targets. (Shooters can return to the point to pick up their kit and empties once their rifles are off the point)

Practice 3 600 yards

1 Sighter on a handheld fig 11 Target.

10 Rounds required

2 x 30 second exposures of Fig 11 Target 5 round per exposure.

Practice 6 600 yards (Time Permitting)

5 Rounds required

2 Shooters on the line

One figure 11 at Target 1 and one at Target 4 positions.

The targets will move from the sides to the centre, back to the side.

One shot per each traverse when the target is moving. No shots when stationary (Target will face away). There will be 5 traverses per shooter.
